

# TRUTH IN SAVINGS DISCLOSURE SHARE CERTIFICATE

## Rate Information

The rates on your term share account are:

Dividend Rate \_\_\_\_\_ %

Annual Percentage Yield \_\_\_\_\_ %

You will be paid this rate until first maturity.

## Compounding Frequency

Unless otherwise paid, dividends will be compounded every

\_\_\_\_\_.

## Crediting Frequency

Dividends will be credited to your account every \_\_\_\_\_.

Alternatively, you may choose to have dividends paid to you or another account every \_\_\_\_\_ rather than credited to this account.

## Minimum Balance Requirements

Minimum balance required to open this account \$ \_\_\_\_\_.

Minimum daily balance to obtain the disclosed annual percentage yield \$ \_\_\_\_\_.

## Daily Balance Computation Method

Dividends are calculated by the daily balance method which applies a daily periodic rate to the principal balance in the account each day.

## Accrual of Dividends on Noncash Deposits

Dividends will begin to accrue on the business day you place noncash items (for example, checks) to your account.

## Time Requirements

Your account will mature \_\_\_\_\_.

## Nature of Dividends

Dividends are paid from current income and available earnings, after required transfers to reserves at the end of a dividend period.

## Transaction Limitations

After the account is opened, you may not make additions into the account until the maturity date stated on the account. You may make withdrawals of principal and/or dividends, on an exception basis, from your account before maturity only if we agree at the time you request the withdrawal. Principal withdrawn before maturity is included in the amount subject to early withdrawal penalty. You can withdraw dividends after they are credited to your account.

## Early Withdrawal Penalties

*A penalty may be imposed for withdrawals before maturity*

The penalty imposed will be as follows: on terms 12 months and less the penalty will be 90 days dividends. On terms 13 months and over the penalty will be 180 days dividends. The penalty is calculated as a forfeiture of part of the dividends that have been or would be earned on the account. If the account has not yet earned enough dividends or if the dividend has already been paid, the penalty will be deducted from the principal. There are certain circumstances, such as death or incompetence of an owner, where we may waive or reduce this penalty. On IRA accounts, see your plan disclosure for other possible penalties that may apply.

## Automatically Renewable Account

This account will automatically renew at maturity. You may prevent renewal if you withdraw the funds in the account at maturity (or within the grace period mentioned below, if any) or we receive written notice from you within the grace period mentioned below, if any. We can prevent renewal if we mail notice to you at least 30 calendar days before maturity. If either you or we prevent renewal, your deposit will be placed in a dividend-bearing account.

Each renewal term will be in a term the same as the original term, beginning on the maturity date. The dividend rate will be the same we offer on new term share accounts on the maturity date which have the same term, minimum balance (if any) and other features as the original term share account. You will have a grace period of ten calendar days after maturity to withdraw the funds without being charged an early withdrawal penalty.
