Connecticut's Credit Unions have the opportunity to collaboratively leverage a new hybrid **self-funded healthcare model** through a voluntary employees benefits association (VEBA) program. VEBAs can **benefit credit unions' bottom lines** and **reduce employee contributions**. Credit unions with **10+ employees** are invited to attend this special session to learn more about the program, how it can benefit your credit union, and the next steps to move forward.

With the cost of health insurance at all-time highs and still increasing, companies of all sizes are looking for affordable ways to deliver high-quality healthcare to their employees.

Guided Benefits helps small and mid-size businesses gain control of their health benefits program with the VEBA program. The VEBA program gives small/mid-size companies affordable access to Fortune 500-level benefits and **removes the administrative headaches** of benefits enrollment with an elegant online platform.
