Now that you have verified your identity, you will choose a Username and confirm where you wish to receive your temporary password.

Username

For security purposes, we require that your Username be unique and that it is complex enough to protect your account. You must choose a name that contains at least eight letters and numbers, but we encourage you to use up to 20 characters and symbols as well.

Now that you have a valid Username in the system, we can send you a temporary password. This password will be used to further verify your identity and confirm that we have a good means of electronic communication with you. We will send the password to the email that you entered to verify your address, or, if you have a cell phone on record with us, you can choose to have your temporary password sent via SMS text.

Within a few minutes of clicking “Continue” you will receive your temporary password via the method you selected on the previous page. When your temporary password arrives, enter it into the Temporary Password field and click “Log In”.

If you encounter issues:

If you elected to receive it via email and are not seeing it reasonably soon, please remember to check your spam folder and confirm that you typed your email address in correctly.

If the password will not work, make sure you are entering it completely and correctly. If you still cannot get it, you can press “Reset Password” to try again.

As always, if you are having difficulty you can always reach out to us via messaging on the web and in the app, or call us at 734-676-7000.

Having successfully entered a correct Temporary Password, you will now be asked to create your permanent Online Banking Password.

Like our Usernames, Passwords need to be complex to protect your account. We require at least 8 characters and you must use letters and numbers. We encourage you to extend the length of your password (up to 20 characters) and to use upper and lowercase letters, numbers and symbols. The strength of the password will be indicated by a color-changing bar (red, yellow and green) and the indicators of “Weak”, “Fair” and “Strong” below the Password field.

Once you have a good strong Password that you can remember, repeat it in the “Confirm Password” field and click “Continue”.

Successfully entering your password will load the Online Banking Dashboard. Do not be concerned if it takes a moment to load the very first time you log into Online Banking. On your first visit, your dashboard and all of your account information is loading for the first time. This may take a moment if you are on a slower connection.

We encourage you to check out our Account Overview Guide and watch the overview videos to get the most from your new Online Banking platform. Visit www.myaocu.com/learning-library for more guides and tutorials.
