A NOTE FOR PARENTS

HOWDY!

My name is Cash and I like you already, because you clearly care about your child and their future financial state. This little book is not only an awesome activity book, more importantly it is a tool that will help plant a seed of financial responsibility.

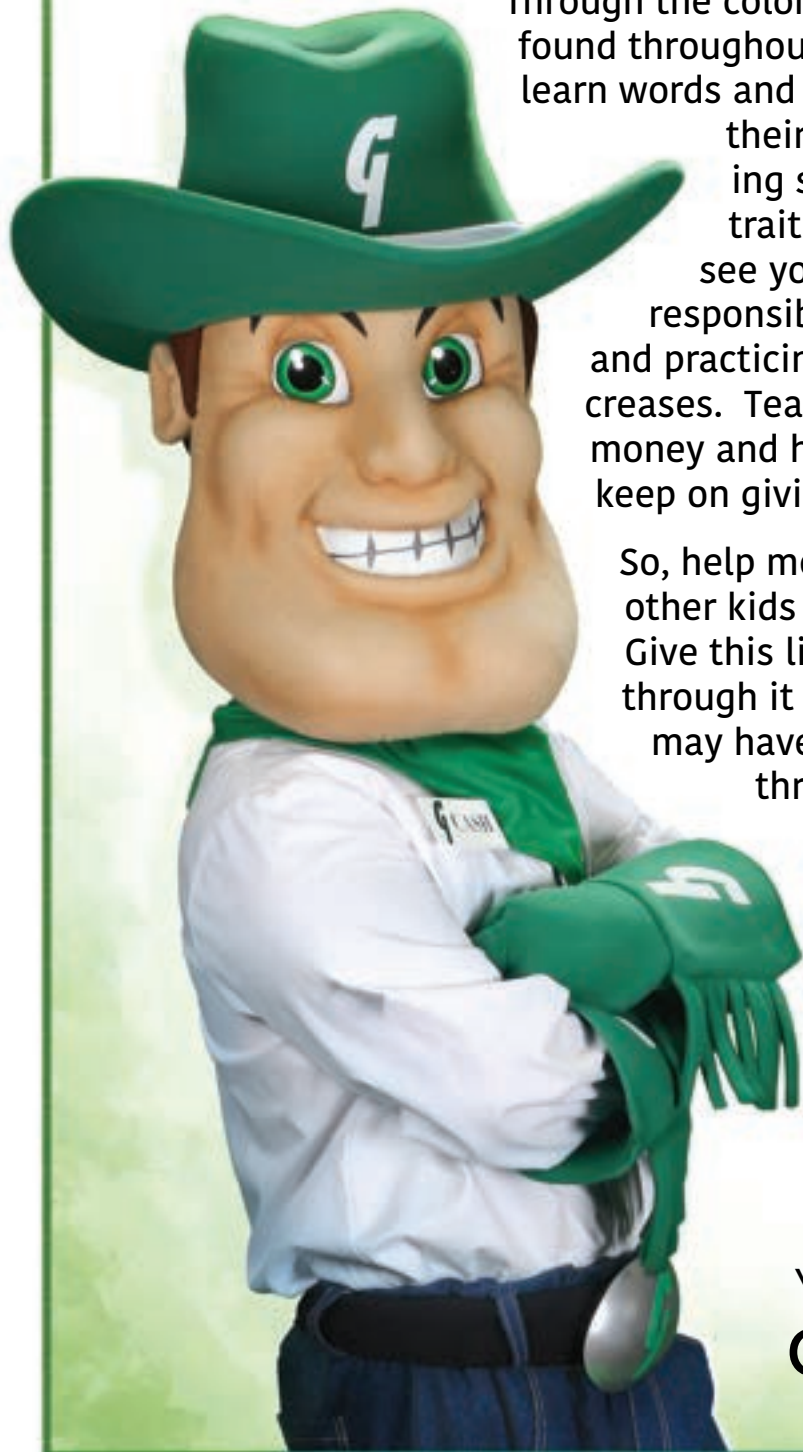

Through the coloring pages, mazes, and word puzzles found throughout this activity book, your child will learn words and concepts that will ultimately lead to their financial success as they grow. Having solid money habits is many times a trait we inherit from our parents. If kids see you, their parents, living financially responsible, the likelihood of them growing up and practicing good money habits drastically increases. Teaching your children the knowledge of money and how to handle it is truly a gift that will keep on giving.

So, help me. Help me teach your kids and other kids the importance of financial literacy. Give this little book to your children and work through it with them. Answer questions they may have about certain terms and talk them through the definitions. This book is meant to be a fun activity for kids, as well as a tool for parents to instill solid financial habits. So please utilize it!

And as always, your friends here at Guaranty Bank & Trust are just a quick phone call or visit away from helping you through any questions or financial concerns.

Your friend always,

CASH
