

ALL ABOUT ALLOWANCE

Adam gets \$10 each week for his allowance. He puts \$2 into savings and uses the rest for things like pizza, ice cream and music.

Today, Adam and his friends are trying out a new pizza place in town. Adam has \$7 in his wallet.

Here are some of the items on the menu at Pizza Planet:

Pizza slice \$2

Pizza slice with Extra Cheese \$2.25

French Fries \$2.50

Fountain Soda \$1

Extra Pizza Toppings \$0.50/each

Pizza

Can you help Adam figure out what he can buy?

1. If Adam only wants to spend \$3 today, can he buy a slice with extra cheese and a fountain soda?

1. Yes
2. No

2. If Adam buys a fountain soda, fries and a slice with one extra topping, how much money will he have left?

1. \$1.50
2. \$2
3. \$0
4. \$1

3. Adam bought a slice with two extra toppings and a fountain soda. Which of the following can he still buy?

1. French fries and a slice
2. A slice with extra cheese and another fountain soda
3. Another slice with two extra toppings
4. None of the above

Answers:

1. B

2. D

3. A
