

“My husband Paul served in Vietnam in the one hundred and first airborne division. Protecting our country. He suffers from severe PTSD and struggles every day with it. He is my Hero.” – Janet Hendrickx

---

“Steve Borden has served our country, our community and his family for as long as I've been his friend and beyond.

He was Special Forces with 1st group until leaving the Army to become a Metro Police Officer.

He worked in many capacities and although he likes the action himself, it is training others that provides him his mojo.

Currently he is training new firearms owners and retraining those that developed bad habits at FRONT SIGHT in Pahrump.

Steve is a proud father of 5, 3 sons and 2 daughters of which several have followed in his footsteps and currently serving to protect our community as Metro Police Officers. He also is a proud grandpa many times and soon to have more.

He's a loyal friend, an honorable man with outstanding character, which is difficult in this day and age.

Though he's had multiple back surgeries due to military service he usually has his humor and work ethic to see him through.

I pray daily his pain subsides and he and his new wife live long and prosper.

Stay frosty Steve” – Robert Derry
